
(a) The multi-year climate record
storm threshold, A = 5
event onset
detail window
atmospheric dust, A
available surface dust, S
seasonal forcing, F
Time (Mars years)
(b) One storm, in detail
Highlighted event; peak at year 3.77
rapid growth
peak
gradual decay
fuel depleted
dust input
settling loss
net rate dA/dt
dust rate (A per sol)
Sols relative to storm peak
